

Discover a revolutionary new treatment that gets **IMMEDIATE** results for Headaches and Chronic Pain!

If you have tried numerous medical treatments, pain medication, even chiropractic care or epidural steroid injection and you received little or no relief for your headaches....don't give up.

There is hope!

Finally, you could get pain reduction right away. Research shows that many headaches are linked to problems in the cervical spine; that is your neck. When we examine our "chronic headache patients", we find misalignments in the bones of their neck creating pinched nerves and muscular imbalances. **A few sessions relieve years of pain.** Some patients stop having headaches in less than 10 days once they try our FDA cleared Triton® DTS system as a tool.

We want you to become one of the miracles we see in our office by making this revolutionary non-surgical treatment also available to you.

We believe the Triton DTS Spinal Decompression Treatment to be the most advanced non-surgical and pain-free alternatives available today. **It is a non-surgical computerized traction based procedure for the relief of acute or chronic headaches caused by cervical spine degeneration that could help eliminate your symptoms right away.** During this procedure, by cycling through gentle distraction and relaxation phases and by proper positioning, spinal disc can be targeted and placed under negative pressure, causing a vacuum effect within it.

Spinal decompression studies indicate 92% improvement in examination findings with one study reporting an immediate resolution of symptoms in 86% of the participants. Results will vary depending on your particular condition, how long you have had your condition for and your willingness to adhere to your recommended treatment plan.

The best way for you to discover how Triton DTS System can help your headaches is to experience it yourself risk free. You are eligible to receive this one-time special. Call now to schedule your no obligation, never-a-charge consultation. If Dr. Adkins determines you are a candidate for Spinal Decompression Therapy, you will receive **2 Free* treatment visits.**
